Mission Statement of the
BASD

School Counseling Department

Contact your child's school counselor...

- ...when you have concerns about your child's academic progress.
- ...when there are issues preventing your child from doing his or her best in school.
- ...when your child may need extra support.
- ...when a crisis situation is impeding your child's school functioning.

School counselors welcome your calls, questions and concerns. Counseling and guidance services are available to all students. While counselors focus on school related issues, they can help families seek services within the community that may require specialized training.
