

BOYERTOWN AREA SCHOOL DISTRICT
EDUCATION CENTER

“to enable all students to succeed in a changing world”

September 30, 2009

Dear Parents/Guardians:

The purpose of this letter is to provide you with an update regarding the H1N1 virus.

We appreciate the efforts and cooperation we have received from BASD students, staff, and parents/guardians. We are continuing to reinforce good hygiene practices at school. Our school nurses are working with the parents/guardians of students who are reported to be ill. We are closely monitoring student enrollment.

We wanted to report to you that as of this date BASD has had one reported student case of the H1N1 virus. In this case, as we would address any such case, the student was permitted to return to school following treatment from a family physician.

Future updates regarding the H1N1 virus will be provided on our district website, www.boyertownasd.org. We also have a number of H1N1 virus resources linked to our district website. We appreciate your ongoing support in this matter.

Please contact me if you have any questions regarding this information.

Sincerely,

A handwritten signature in black ink, appearing to read "R. Scoboria".

Robert L. Scoboria
Assistant Superintendent
Student and Administrative Services
