"to enable all students to succeed in a changing world"

## ***BOYERTOWN AREA SCHOOL DISTRICT FOOD SERVICES***

In our efforts to continue to provide parents of students within the Boyertown Area School District with convenient and efficient online debiting services, the district offers an online service called EZSchoolPay.

EZSchoolPay will help you better manage your child's school meal account. You are able to check your child's school meal account balance and purchases online, as well as make payments to your child's account with your Visa or MasterCard. **The convenience fee is \$1.35 per payment transaction. There is no fee to view your student's account balance and/or purchases.**

This service is available at [www.ezschoolpay.com](http://www.ezschoolpay.com). Simply follow the instructions to setup your child's account. Parents will be instructed to create an account and link their children to the account before entering a credit/payment. You will need to know your child's Student ID number when setting up their account. If you do not know your child's student ID number, please contact the Food Services Office.

Online payments received via the school's computerized food service system are automatically applied to your child's account within minutes; therefore, funds are ready and available for use by your child. You can be assured that your children's meals will continue uninterrupted.

Boyertown Area School District Food Service Department strives to provide a balanced, nutritional school meal program for all children and to provide support and options for parents. EZSchoolPay partners smoothly with the Boyertown Food Service software to provide parents and the school district with the most efficient and convenient way to manage school meal account balances.

If you have any questions, please feel free to contact the Food Services Department at 610-369-7419 or email [cclinton@boyertownasd.org](mailto:cclinton@boyertownasd.org).
