Dr. Faidley introduced Susan Baker and Charles Watters from the Pennsylvania Economy League who made a presentation to the Committee summarizing the findings of the 2014-2015 Boyertown Area School District Demographic Study Update. A copy of the report will be available on the District website when it is received in the final version. A copy of the presentation is included with these minutes. Charles Watters reviewed information regarding the live births in the Boyertown area, the housing and population history and the various building plans and developments proposed in the District obtained from the 10 municipalities that comprise the Boyertown School District. Based on the data and projecting into the future, it appears that the student population will be declining over the next 5-10 years. There was various discussion about the data, how it was used and how the projections were developed.
