May 2023

Dear Parents/Guardians of Learning Support ELA Students,

We would like to provide some additional information about the summer reading requirement for students who will be in learning support English Language Arts next school year. The main goal of the summer reading requirement is to have students read. 😊

If your student is interested in a book from the district-issued list, he/she can choose from there, but it is not required. It is fine if your student would prefer to read a book not on the list. We want the student to *enjoy* the book and to be *excited* about reading it! If you would like other book suggestions, we have included a few titles below. Again, please note that your student is free to choose any book to read this summer.

While reading, all students are encouraged to take brief notes, which they should bring to school in the fall. Students will be completing a writing assignment about the book in ELA, giving the teacher an opportunity to see the students' writing skills at the beginning of the school year.

If you have any questions or concerns, please feel free to contact the teacher below:

West: Ms. Kim Warren at kwarren@boyertownasd.org

Sincerely,

Stephanie L. Landis
Principal, MS West

Holes by Louis Sachar (Lexile 660)

Stanley Yelnats is under a curse. A curse that began with his no-good-dirty-rotten-pig-stealing-great-great-grandfather and has since followed generations of Yelnatses. Now Stanley has been unjustly sent to a boys' detention center, Camp Green Lake, where the boys build character by spending all day, every day digging holes exactly five feet wide and five feet deep. There is no lake at Camp Green Lake. But there are an awful lot of holes.

It doesn't take long for Stanley to realize there's more than character improvement going on at Camp Green Lake. The boys are digging holes because the warden is looking for something. But what could be buried under a dried-up lake? Stanley tries to dig up the truth in this inventive and darkly humorous tale of crime and punishment—and redemption

Tangerine by Edward Bloor (Lexile 680)

Paul Fisher sees the world from behind glasses so thick he looks like a bug-eyed alien. But he's not so blind that he can't see there are some very unusual things about his family's new home in Tangerine County, Florida. Where else does a sinkhole swallow the local school, fire burn underground for years, and lightning strike at the same time every day?

The chaos is compounded by constant harassment from his football-star brother, and adjusting to life in Tangerine isn't easy for Paul—until he joins the soccer team at his middle school. With the help of his new teammates, Paul begins to discover what lies beneath the surface of his strange new hometown. And he also gains the courage to face up to some secrets his family has been keeping from him for far too long. In Tangerine, it seems, *anything* is possible.
