

Board Representative Student Report

5/24

Sarah: Good evening Board and Community Members! Olivia will not be present at this meeting as she had a family emergency come up last minute, but she wanted me to pass along her well wishes as this is our final report of the year. First, I would like to begin by thanking the board and community for my time in this position. Over the last two years, I have learned the amount of effort it truly takes to make effective decisions for the entire district and the importance of collaboration. This opportunity taught me so much and thank you for allowing me to expand the Student Board Representative position to what it is today. Mrs. Torchia, thank you for being a role model to me and helping me with my Students of the Year endeavors. Mrs. Hogan, thank you for being such a welcoming individual, and all the positive encouragement you have given me. I wish everyone the best of luck and encourage you to continue making Boyertown an inclusive, blossoming community.

Moving on, PSSA testing, Keystones, and AP Tests took place during the month of may in the high school! With these tests wrapping up, students are excited to be nearing the end of the school year.

In addition, prom was a great success for all those in attendance. The senior class office did an outstanding job sticking to their theme of “Old Hollywood”. To add, on behalf of the senior class, I would like to thank Mr. Fries and BASH staff for organizing our Senior Day Trip to Hershey. Although, weather was not on our side, it was a very fun day for the class to spend together.

Finally, I would like to introduce our upcoming, new junior board representative, Lexy Bacino! She will be our junior board representative at the start of next year, and I am very excited for her to enter the position. Lexy and Olivia plan to continue their work with the Student Leader Luncheons

by partnering with the Student Council. With that, if the board has any topics they would like discussed with the student body, please let Olivia and Lexy know so they can plan accordingly.

Finally, I would like to thank you all once again for this wonderful school year. I hope you all have a relaxing summer, and have a great night!
