

Second Grade Summer Learning Activities

Use this document as a guide to learning experiences you and your child can access throughout the summer. Practice skills in short time frames - about 10-15 minutes at a time. Make the learning fun and enjoyable! Consistent, targeted practice each day will yield positive results and support students in maintaining skills.

START HERE: Students should log-in to [Clever.com](https://www.clever.com) to access the apps/websites below.

IXL Priorities: Math and ELA

 - **1B** [Tricky Word Cards Link](#)

No 'tech' learning options:

- Read to/with your child
- [Second Grade Summer Reading Book List](#)
- [Activities to keep reading strong over the summer](#)
- [List of Hook Books](#) - Get Kids 'hooked' on reading
- Create a sidewalk word ladder using chalk
 - Practice reading and spelling skills and have fun outside at the same time with a chalk word ladder. Write out a word on each empty space of the ladder, and have your child start at the bottom. Each time he or she moves up the ladder, ask your child to sound out the word he or she lands on. When he or she reaches the top, turn around and do the ladder backward. You can also practice counting by swapping the words out for letters
