

Parent Drop-off

Beginning Monday, August 27th we will change our parent drop-off procedures as shown below. In addition to the new drop-off route, we will be making the following changes:

1. Students will be allowed in the building at 7:15 am
2. Students who walk will be able to come in the side door #18.
3. We will try to empty 6-8 cars at once. When you are parked between the orange cones, your children should get out of the car and enter the building at door #17.

Below are some suggestions that will also help us with our traffic flow:

1. Try not to communicate with your child as they are getting out of the car. Share any information they need to know before you get to the school so that they can quickly get out of the car and you can keep traffic moving.
2. Try to arrive earlier in the morning. This is especially true on bad weather days.
3. Follow the plan. A systematic approach where everyone works together will work best for everyone.

Our biggest concern with this process is that we keep everyone safe. Please understand drop off might take a little bit longer than you would like so leave yourself enough time to get to work.

Thanks in advance for your cooperation.
