- The committee re-assessed the election plan recommendation for equalization due to the new understanding that regions in multi-county school districts must be comprised of contiguous election districts. All options for equalizing the regions were reviewed. Proposal C previously recommended is not viable because Douglass Berks district 1 would not be contiguous with the rest of Region 1. Proposal D would result in Region 2 being non-contiguous AND so is also not viable. Proposal B was still not favored because it splits the Boyertown Borough into 2 regions.

The committee agreed that Proposal A (moving Douglass (Mont.) district 1 from Region 3 to Region 1) was the best option, noting that it only impacts on district of voters and the rural characteristics are similar to that of Region 1.

The committee reconfirmed its intent to bring the revised equalization recommendation to the Board on December 11<sup>th</sup>. The motions and presentation will be updated accordingly.

- Public comment was heard.
