**COMMUNITY BULLETIN BOARD** - Please be sure to visit our Community Bulletin Board at <https://www.boyertownasd.org/domain/1321>. During the pandemic, we are restricting the number of community flyers we are sending home. Instead, we are posting this information on this bulletin board. There you will find scouting information, PTO information, community information, and more. Be sure to visit the site frequently for updates.

## **Student Illness at Home:**

Parents should continue to follow BASD policy as listed in the student handbook when deciding on whether or not to send a child to school. As stated in the BASD student handbook, if your child exhibits any of the following symptoms, it is recommended that you keep your child home from school and consult with the child's primary health care provider:

1. A cough interfering with your child's sleep or ability to participate in school activities
2. A cough that is productive and has phlegm or is associated with fever or trouble breathing.
3. Fever: A temperature equal to or greater than 100 degrees without the use of a fever reducing medication.  
Please note that the student's temperature should remain normal without the use of fever reducing medication for 24 hours prior to the return to school.
4. Nausea, Vomiting or diarrhea
5. Unusual skin eruptions, hives or rash.
6. Redness or drainage from the eyes.

Please refer to the BASD student handbook for more information.

## **Student Illness in School:**

If a student is sent to the health room during the school day and the school nurse determines that he/she needs to go home, a phone call will be placed to a parent or guardian. At that time, the school nurse will discuss the student's symptoms and course of action needed in order for the student to return to school. If you have any questions or concerns about your student's illness, please contact the health room at 610-473-1770.
